CAREER OBJECTIVE

Fresher Software Engineer with hands-on experience in Python, Java, Full-Stack Development, Machine Learning, MySQL, MongoDB, and REST APIs through internships and academic projects. Strong foundation in Data Structures, Algorithms, OOP, and software development, with experience building web applications and ML solutions using React, Node.js, Express.js, Flask, Pandas, and NumPy. Seeking an opportunity to apply my skills in software engineering, full-stack development, and AI/ML to build reliable and scalable solutions.

EDUCATION

Lakireddy Bali Reddy College of Engineering
B.Tech, AI & DS – CGPA: 8.53

May 2026

INTERNSHIPS

- Datavalley India Pvt. Ltd. — Python Full-Stack Development Intern** *Dec 2025 - Mar 2026*
 - Developed full-stack web applications using HTML, CSS, JavaScript, Flask, MySQL, and React, gaining hands-on experience in frontend and backend development.
- Smart Homes & Industrial Solutions — AI/IoT Intern** *May - June 2025*
 - Applied Python and IoT concepts with sensors for real-time data collection and designed a smart robotic vehicle with a voice assistant.
- BIST Technologies Pvt. Ltd. — ML Intern** *June - July 2024*
 - Implemented Python-based machine learning workflows involving data preprocessing, data visualization, model training, and model evaluation.

PROJECTS

- Industrial Vision Framework – C#, Windows Forms, AETC** *2026*
 - Introduced a real-time industrial vision system for object detection, improving detection accuracy by 85% using image processing techniques. Designed a modular framework for multi-camera quality inspection.
- Multi-Disease Prediction System – ML, Python(Flask), HTML, CSS, JS** *2025*
 - Built machine learning models to predict multiple diseases from health data, achieving 93% prediction accuracy. Developed a responsive web interface for real-time predictions using Flask.
- Wedding Planner Web App – HTML, CSS, JS, Node.js, Express.js, MongoDB** *2024*
 - Developed a full-stack web application to manage wedding planning, bookings, and event scheduling.
 - Designed REST APIs and a dynamic user interface for booking workflows while integrating MongoDB for efficient data management.

SKILLS

- Programming Languages:** Python, Java, JavaScript
- Web Technologies:** HTML5, CSS3, React, Node.js, Express.js, Flask, REST APIs
- Databases:** MySQL, MongoDB
- Core Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms, SDLC, OS
- AI & Data Science:** Machine Learning, Data Visualization, Model Training, Model Evaluation, Supervised Learning, Unsupervised Learning, NumPy, Pandas, Matplotlib, Data Cleaning
- Tools & Platforms:** Git, GitHub, VS Code, Google Colab, Vercel, Render

CERTIFICATIONS

- Oracle, OCI Generative AI** *OCT 2025*
- Cisco Networking Academy, Programming Essentials in Python** *MAR 2024*
- Infosys Springboard, HTML, JavaScript, Node.js** *OCT 2024*

ACHIEVEMENTS

- Received **Best Project Award** for final year project at Lakireddy Bali Reddy College, 2026.
- Completed 100+ problems on LeetCode, building strong foundations in DSA and improving logical thinking.
